CONTRACTOR'S PETITION

Requesting New Services be added to

Contract VA-000920-ACSG

SMS Tracking Number _____
Modification # (Assigned by DIT) 7

Petitioner ACS GS
Date Aug 12, 2002

By executing this form, the Contractor, as identified in the above referenced Agreement, hereby requests the Commonwealth add the specific Service as identified herein, to Contract VA-000920-ACSG.

Specific Service or brand family to be added: Entry Level Seat Management Service

The Contractor hereby represents and warrants that until such action as taken by the Commonwealth that results in the addition of the identified Service to the subject Contract, he (Contractor) shall not sell, represent that this action is imminent, or otherwise infer that the Service is forthcoming. Any addition of Service to the subject Contract is at the Commonwealth's sole discretion and is dependent upon an evaluation conducted by SMS, which is not limited by time. No Service shall be added to subject Contract until this form has been executed by the Contracts Manager or his designee, DIT.

Identify Pricing of Service: Attached as Table B-3 to ACS APM

Without equivocation, as evidenced by the signature below, the Contractor warrants that the above Service shall and will be available to all "authorized users" for the Term of the Contract, to include all renewals thereof and any other representation made by the Contractor shall be considered a breach of the Contract.

(Contractor signature)

Contract Modification – Entry Level services

This contract modification is to add a new type of service, entry level services, to the seat management contract. These services NTE prices have been added to the ACS APM as reflected in table B-3, Entry Level Services. Actual prices will be based on comparable standards at the time of proposed services. The purpose of this modification is to provide a means by which an Agency may select to receive only the following services.

- Provide services to acquire COV approved computer hardware
- Provide hardware break/fix services in accordance with the service level selected:
 - SL 'O' is defined as warranty level service based on the manufacturers written warranty. The agency performs necessary diagnostics to determine hardware problem and contacts the manufacturer for the parts required to correct the problem.
 - SL '1' and SL '2' are as originally defined in the ACS Administrative Procedures Manual.
- Provide disposal services for ACS owned assets upon refresh
- Provide inventory management of ACS assets

The 'basic', 'value-added' and 'enhanced' seat management services may continue to be purchased off the master contract.
